Preamble

The Contracting States of this Protocol,

Having regard to the Agreement on the Creation of an African Regional Intellectual Property Organization (ARIPO) then known as the Industrial Property Organization for English-Speaking Africa, concluded in Lusaka (Zambia) on December 9, 1976, and in particular to its Article III(c), in accordance with which the objectives of the Organization include the establishment of such common services or organs as may be necessary or desirable for the co-ordination, harmonization and development of the intellectual property activities affecting its members.

Considering the advantages to be gained by the pooling of resources in respect of intellectual property administration,

Hereby agree as follows:

Section 1
General

The African Regional Intellectual Property Organization (ARIPO) is empowered to grant patents and to register utility models and industrial designs and to administer such patents, utility models and industrial designs on behalf of Contracting States in accordance with the provisions of the Protocol, through its Secretariat (hereinafter referred to as “the Office”).

Section 2
Filing and Transmittal of Applications

(1) Applications for the grant of patents or the registration of utility models and industrial designs by the Office shall be filed by the authorized representative of the applicant or by the applicant with either the Office or, where the law of a Contracting State so permits, the industrial property office of a Contracting State.

(2) An application filed with the industrial property office of a Contracting State under the provisions of paragraph (1) of this Section shall have the same effect as if it had been filed on the same date at the Office.

(3) The provisions of paragraphs (1) and (2) of this Section shall not preclude the application of legislative provisions which, in any Contracting State

- (a) govern inventions which, owing to the nature of their subject-matter, may not be communicated abroad without the prior authorization of the competent authority of that State, or
- (b) prescribe that each application is to be filed initially with the industrial property office of the Contracting State or make direct filing with another authority subject to prior authorization.

(4) An applicant may be represented by an attorney, agent or legal practitioner who has the right to represent applicants before the industrial property office of any Contracting State. Where

- (a) an application is filed directly with the Office but the applicant’s ordinary residence or principal place of business is not situated in the host country of the Office; or

- (b) an application is filed with the industrial property office of a Contracting State by an applicant whose ordinary residence or principal place of business is not situate in a Contracting State, the applicant shall be represented.

(5) Where the application is filed with the industrial property office of a Contracting State, such office shall within one month of receiving the application, transmit that application to the Office.

Section 3 ***Patents***

(1) A patent application shall:

- (i) identify the applicant;
- (ii) contain, as prescribed, a description of the invention, a claim or claims, a drawing or drawings, where necessary and an abstract;
- (iii) designate the Contracting States for which the patent is requested to be granted;
- (iv) be subject to the payment of the prescribed fees.

(1A) Where the patent application describes or claims as an invention a micro-biological process on a product thereof, and requires for the performance of the invention the use of a micro-organism which is not available to the public on the filing date of the application and which cannot be made or obtained on the basis of the description in the application, the micro-organism shall before the acceptance of the application be dealt with in the manner prescribed in the Regulations.

(2) (a) The Office shall examine whether the formal requirements for applications have been complied with and shall accord the appropriate filing date to the application.

(b) If the Office finds that the application does not comply with the formal requirements, it shall notify the applicant accordingly, inviting him to comply with the requirements within the prescribed period. If the applicant does not comply with the requirements within the said period, the Office shall refuse the application.

(c) The Office shall notify each designated State of the fact that a patent application has been filed which complies with the prescribed formal requirements.

(3) The Office shall undertake, or arrange for, the substantive examination of the patent application. If it finds that the invention claimed in the application does not comply with the requirements of patentability referred to in sub-section (10), it shall refuse the application.

(4) Where under

- (a) sub-section (2)(b) or (3) of this Section;
- (b) any other Protocol within the framework of ARIPO

the Office refuses any application, the applicant may, within the prescribed period, request the Office to reconsider the matter.

(5) If after the Office has reconsidered the application, the Office is still of the view that the application shall be refused, the applicant may lodge an appeal against the decision of the Office to the Board of Appeal established in terms of Section 4*bis* of the Protocol.

(6) Before the expiration of six months from the date of the notification referred to in sub-section (5), a designated State may make a written communication to the Office that, if a patent is granted by the Office, that patent shall have no effect in its territory for the reason

- (i) that the invention is not patentable in accordance with the provisions of this Protocol, or
- (ii) that, because of the nature of the invention, a patent cannot be registered or granted or has no effect under the national law of that State.

(7) After the expiration of the said six months, the Office shall grant the patent, which shall have effect in those designated States which have not made the communication referred to in sub-section (6). The Office shall publish the patent granted.

(8) If the Office refuses the application notwithstanding a request for reconsideration under sub-section (4), the applicant may, within three months from being notified of such refusal, request that his application be treated, in any designated State, as an application according to the national law of that State.

(9) At any time before the grant or refusal of a patent an applicant for a patent may, upon payment of the prescribed fees, convert the application into an application for a utility model, which shall be accorded the filing date of the initial application. An application may not be converted under this sub-section more than once.

(10) Inventions for which patents are granted by the Office shall be new, shall involve an inventive step and shall be industrially applicable. An invention is new if it is not anticipated by prior art. Everything made available to the public anywhere in the world by means of written disclosure (including drawings and other illustrations) or by use or exhibition shall be considered prior art provided that such making available occurred before the date of filing of the application or, if priority is claimed, before the priority date validly claimed in respect thereof and further provided that a disclosure of the invention at an official or officially recognized exhibition shall not be taken into consideration if it occurred not more than six months before the date of filing of the application or, if priority is claimed, before the priority date validly claimed in respect thereof.

(11) On each anniversary of the filing of the application, the Office shall collect the prescribed annual maintenance fees, part of which shall be distributed among the designated States concerned. The amount of the fees shall depend on the number of States in respect of which the application or patent is maintained. Provided it is maintained, a patent granted by the Office shall in each designated State have the same effect as a patent registered, granted or otherwise having effect under the applicable national law. The duration of the patent shall be twenty years from the filing date.

(12) A patent granted by the Office shall in each designated State be subject to provisions of the applicable national law on compulsory licenses, forfeiture or the use of patented inventions in the public interest.

(8) Before the expiration of six months from the date of the notification referred to in sub-section 4(c), a designated State may make a written communication to the Office that, if a utility model is registered by the Office, that registration shall have no effect in its territory for the reason:

- (i) that the utility model is not registrable under the provisions of the Protocol, or
- (ii) that, because of the nature of the utility model, such utility model cannot be registered or has no effect under the national law of that State.

(9) If the Office refuses the application notwithstanding a request for reconsideration under subsection (7), the applicant may, within three months from being notified of such refusal, request that his application be treated, in any designated State, as an application according to the national law of that State.

Rule 6bis
Patent Applications Relating to Micro-organisms

6bis. 1. Applications

(1). The description of an invention in an application for a patent which requires for its performance the use of a micro-organism

- (a) which is not available to the public at the date of filing the application; and
- (b) which cannot be described in the application in such a manner as to enable the invention to be performed by a person skilled in the art shall be regarded as disclosing the invention only if
 - (i). not later than the date of filing of the application, a culture of the micro-organism has been deposited with an international depositary institution; and
 - (ii). the name of the depositary institution, the date when the culture was deposited and file number of the deposit are given in the application, and, where a new deposit is made under paragraph 6 bis.4 below, the applicant or proprietor makes a new deposit in accordance with that paragraph.

(2). Where the information specified under subparagraph (1) (b) (ii) above is not contained in the application as filed, it shall be submitted to the ARIPO Office,

- (a) before the end of the period of 16 months after the date of filing of the application or, if priority is claimed, after the priority date.
- (b) where the Office has received a request by any person for information and inspection of the application under Rule 3 of these Regulations, before the end of one month after the Office communicates to the applicant a notification of receipt of the request, whichever period is the earliest.

(3). The submission of information specified in subparagraph (1)(b) (ii) above shall constitute the unreserved and irrevocable consent of the applicant to the depositary institution with which a culture is from time to time deposited making the culture available on receipt of the certificate of the ARIPO Office authorizing the release to the person named therein as a person to whom the culture may be made available and who makes a valid request to depositary institution.

(4). The application for a patent referred to in subparagraph (1) above shall mention any international agreement under which the micro-organism concerned is deposited.

6bis. 2. Availability of Culture

(1). The deposited culture shall be available upon request to any person from the date of publication of the ARIPO patent application and to any person having the right to inspect the files under Rule 3 prior to that date. Subject to the provisions of subparagraph (3) of Rule 6bis. 3 below, such availability shall be effected by the issue of a sample of the micro-organism to the person making the request (hereafter called “the requester”) and the said issue shall be made only if the requester has undertaken vis-à-vis the applicant or the proprietor of the patent:

- (a). not to make the deposited culture or any culture derived therefrom available to any third party before the application has been refused or withdrawn or is deemed to be withdrawn or, if a patent is granted, before the expiry of the patent;
- (b). to use the deposited culture or any culture derived therefrom for experimental purposes only, until such time as the patent application is refused or withdrawn or is deemed to be withdrawn or on the publication of the grant of the patent. This provision shall not apply where the requester is using the culture under a compulsory licence.

(2). For the purposes of subparagraph (1) above, a derived culture is deemed to be any culture of the micro-organism which still exhibits those characteristics of the deposited culture which are essential to the carrying out of the invention. The undertaking referred to in subparagraph (1) shall not impede a deposit of a derived culture which is necessary for the purpose of patent procedure.

(3). The request provided for in paragraph (1) shall be made to the ARIPO Office on a form recognised by the ARIPO Office. The ARIPO Office shall certify on the said form that an ARIPO patent application referring to the deposit of the micro-organism has been filed and that the requester or the expert nominated by him is entitled to the issue of a sample of the micro-organism.

(4). The ARIPO Office shall transmit the request, together with the certification provided for in subparagraph (3) above, to the depositary institution as well as to the applicant or the proprietor of the patent.

(5). The Director General of the ARIPO Office shall publish in the Journal the list of depositary institutions recognised for the purposes of this Rule.

6bis. 3. Availability of Culture to Experts

(1). Until the date of publication of the application, the applicant may inform the ARIPO Office that until the grant of the patent or until the date on which the application has been refused or withdrawn or is deemed to be withdrawn, the availability of the culture referred to in Rule 6bis.2 shall be effected only by the issue of a sample to an expert nominated by the requester.

(2). The following may be nominated as an expert:

- (a) any natural person provided that the requester furnishes evidence at the time of filing the request that the nomination has the approval of the applicant;
- (b) any natural person recognised as an expert by the Director General of the ARIPO Office.

(3). The nomination shall be accompanied by an undertaking from the expert vis-à-vis the applicant similar to that specified in Rule 6bis.2 (1). In this instance the requester will be regarded as a third party.

6bis. 4. New deposit of a micro-organism

(1). If a micro-organism deposited in accordance with Rule 6bis.1 ceases to be available from the institution with which it was deposited because:

- (a) the micro-organism is no longer viable, or
- (b) for any other reason the depositary institution is unable to supply samples, and if the micro-organism has not been transferred to another depositary institution recognised for the purposes of Rule 6bis from which it continues to be available, an interruption in availability shall be deemed not to have occurred if a new deposit of the micro-organism originally deposited is made within a period of three months from the date on which the depositor was notified of the interruption by the depositary institution and if a copy of the receipt of the deposit issued by the institution is forwarded to the ARIPO Office within four months from the date of the new deposit stating the number of the application or the ARIPO patent.

(2). In the case provided for in subparagraph (1) (a) above, the new deposit shall be made with the depositary institution with which the original deposit was made; in the cases provided for in subparagraph (1) (b) above, it may be made with another depositary institution recognised for the purposes Rule 6bis.

(3). Where the institution with which the original deposit was made ceases to be recognised for the purposes of the application of Rule 6bis, either entirely or for the kind of micro-organisms to which the deposited micro-organism belongs, or where that institution discontinues, temporarily or definitively, the performance of its functions as regards deposited micro-organisms, and the notification referred to in subparagraph (1) from the depositary institution is not received within six months from the date of such event, the three months period referred to in subparagraph (1) shall begin on the date on which this event is announced in the Journal of the ARIPO Office.

(4). Any new deposit shall be accompanied by a statement signed by the depositor alleging that the newly deposited micro-organism is the same as that originally deposited.

Rule 7

(1) The claims shall define the matter for which protection is sought in terms of the technical features of the invention. They shall be clear and concise and be supported by the description. The number of the claims shall be reasonable, taking into account the nature of the invention, and where there are several claims, they shall be numbered consecutively in Arabic numerals. Whenever appropriate, claims shall contain:
